TRINITY FALLS!

The Tower of Trinity College Falls.

DAMAGE OF THOUSANDS.

The Blame Is Not Yet Located by the Committee.

A Full Investigation Saturday Morning Next.

NOVEMBER THE TIME TO OPEN NOW

Thousands of Brick Fall, but at a Time When No One, Not Even the Night Watchman, Is on the Grounds to See It Tumble with a Sickening Thud.

On Saturday evening at 11 o'clock the tower, which had just been completed that evening at 5 o'clock, so far as the brick work was concerned, fell, with a fearful crash. No one was injured. The tower was supposed to weigh two million six hundred thousand pounds, contained over three hundred thousand bricks and the loss is estimated between six and ten thousand dollars. These figures are given by C. H. Norton, the builder. There was much excitement all day Sunday and even to-day the curious are taking a look at the wreck. The building committee, consisting of E. J. Parrish, Dr. J. F. Crowell and R. E. Lyon, all who were in the city this morning, had a consultation and ordered work to commence at once. The building will be ready for occupancy by the first of November, one month later than had been announced.

THE FIRST EVIDENCE.

What Builder Norton Saw About 4 p. m. Saturday in the Wall.

Builder Norton says that about 4 o'clock he saw a small crack under the arch of the vestibule door. He was afraid that there might be something wrong and left orders to his foreman to call the men off if the business got worse. The brick masons had completed their job and the carpenters were getting ready to place the roof on the tower. The foreman explained to Mr. Norton that about 5 o'clock he saw the crack get larger and concluded that there was a crush some where and took the men off. At the time of leaving there was no evidence of serious results and Norton was not informed of the approaching fall. It seemed to have burst over the arch at the vestibule door, and the wonderful weight of the brick carried everything before it to the basement.

THE TOWER.

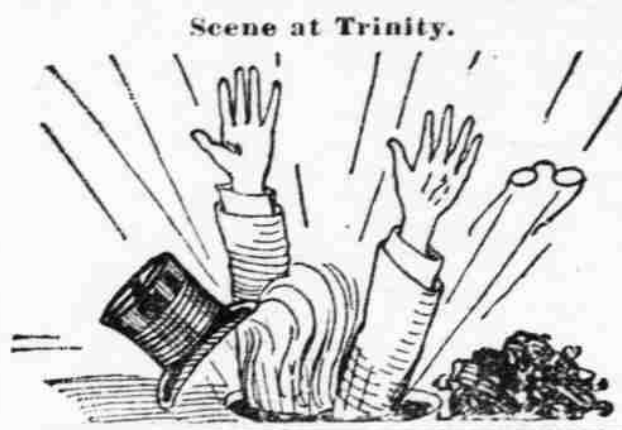

Some Brief Figures Concerning Its Immensity and Weight and Brick in It.

The tower was one hundred feet high. Its estimated weight was two million six hundred thousand pounds. There had been used in its construction some three hundred thousand brick. The bricklayers had completed their task and the carpenters were just getting ready to put a roof on it. This would have nearly completed the brick work of the main building. The tower took with it in falling seventy-two feet of front, including two gables. There were some handsome stone in this part of the building and much of it was destroyed.

THE CAUSE.

A Thousand Theories Have Been Suggested and Perhaps None Will Do.

The town has been busy to-day talking of the loss and what caused the accident. Some say that one man is to blame and some say another. It is claimed that poor material has been used in the tower—that the mortar was made of poor sand and that the brick were not substantial. Again it is claimed that the foundation was not sufficiently strong, while the men who have examined it say that it was

strong enough; that it never bulged. Some say the weight of the tower pulled it down and that the walls were not thick enough to sustain the great weight. The committee on building will investigate at a meeting Saturday and will doubtless locate the blame and the loss on some one interested. It is said that expert builders will be employed to thoroughly investigate and make an unbiased report.

THE LOSS.

The Loss Cannot Be Estimated at Present, but Will Be in the Thousands.

Builder Norton says that while the loss cannot be fairly estimated now, until the debris is cleared away, it will be between \$6,000 and \$10,000. Added to this will be a month's delay, and of course the accident will be against the school for some time.

THE WORK.

Extra Forces Are Being Put on and the Work Is to Be Hastily Completed.

Builder Norton says that his orders are to put on extra men and clear up the wreck; to work night forces and push the work as speedily as possible. He says that will be completed by November 1, and the building will be ready for occupancy. To-day quite a force is wheeling away the brick and timbers—getting matters in shape to resume work. The plans will doubtless be changed and the committee will satisfy itself that the building is absolutely safe before it is ever opened. The fact that the main building stands the shock and jar of the falling tower is evidence that the work has been well done.

AS TO THE LOSS.

Who Will Be the Losers in This Not Yet Demonstrated by the Committee.

As THE GLOBE understands no one has given bonds for the completion of the building. Of course if the blame attaches directly to either the builder or architect and no one else is interested, one of these gentlemen will be held to make good the loss. But at this time it cannot be determined. It may not be out of place to state however that both Leary and Norton desire and have asked a thorough investigation, and this will be granted.

THE RESULT.

What Some People Say in a Small Way and Some Rumors Without Strength.

THE GLOBE could fill its pages with rot, maudlin and dreary, which it hears concerning this disaster. Some say it will ruin Trinity; others say that it was expected, and so on and so forth. The real truth is some of the biggest buildings have toppled and been rebuilt and stood for ages. When the business gets under way the people may see that the building is secure. They will know it, and it will not hurt Trinity two cents. The misfortune is that it must delay the opening of the school; it strikes the one who will stand the blame a blow which will hurt—but that is all.

THEY ARE COMING.

Greensboro to Send Horses and Steamers to Our Great Tourney.

The Record says: At meetings of the several companies comprising the Greensboro fire department, held this week, the following members were elected delegates to third annual meeting of the North Carolina State Firemen's Association, which convenes in Durham on the 25th inst:

Steam Fire Engine Co. No. 1—Delegates, W. F. Bogart and John Schaff. Hook and Ladder Co. No. 1—Delegates, J. J. Stone, S. G. Hodgkin; alternates, R. C. Taylor, Z. V. Taylor. Eagle Hose Co. No. 7—Delegates, M. L. Dixon, R. C. Whittington; alternates, J. H. Ballance, H. J. Elam.

This will be the most important meeting the association has ever held, and a large delegation from all sections of the state is expected.

J. T. Abbott, in behalf of fire department, asked permission to carry steamer and horses to Durham firemen's tournament. Granted.

A FIRE AT HAYTI!

A Loud and Uncalled-for Ringing of Bells.

The Whole Town Aroused to Attend a Little Blaze.

WINSTON DOES UP WASHINGTON.

The Teams Open at Raleigh To-day for a Three Days' Game of Real Ball.

The house belonging to Crockett Lynn, colored, in Hayti, near White Rock Baptist church, was entirely destroyed by fire at a little after 1 o'clock Sunday morning.

Notwithstanding the fact that bells were ringing in this city for a half hour; that engines whistled and a terrible racket was kicked up for some time, the fire was out of the limits and the companies did not reach it.

The furniture, what there was in the house, was for the most part saved.

The authorities should see to it that hereafter there is no general alarm unless there is absolute need of it.

DURHAM DOINGS.

The Day's Record of Current Events in the City and Vicinity.

—Did your wall fall down?

—The Roxboro Lynchburg ball nine played Saturday, Lynchburg setting them 9 to 4.

—Many merchants are going North this week to purchase a fall stock of goods.

—Woven wire, canvas and upholstered cots can be had at the Cheek Furniture company's.

—"I told you so," exclaimed an excited citizen. "I knew the wall would fall." But he knew nothing of the kind.

—Rev. J. S. Dameron will preach at the Primitive Baptist church to-night at 8 o'clock. All are invited to attend.

—The state and southern association of dentists meets at Morehead City this week. Dr. Wm. Lynch will attend from Durham.

—Attention is called to day to the new ad of the Horner school at Oxford. This is a good school and is established. In fact attention is called to the two columns of school announcements to be found in this paper.

—George Herndon gets a big story—one that beats a snake story in point of graphic charm. His solemn statement is to the effect that a large and tempting bull frog, a hummer weighing several pounds, stole, devoured and carried off a spring chicken. This is Mr. Herndon's story, as religiously related by police officer Cheek.

TO PLAY BALL.

Raleigh and Durham to Play Ball This Afternoon About 4 o'clock.

The colored team "Fourth Ward Puzzle," of Raleigh plays ball with the Eclipse of this city.

Big bets are made that Raleigh will be a winner. However a few runs will settle the whole business.

NORTH CAROLINA CYCLISTS.

They Pass Through Richmond En Route to Canada.

The Norfolk Virginian says: Messrs. William Wynne and Neil Spencer, two young cyclists of Raleigh, N. C., were in Richmond last Friday with their machines.

They left Raleigh Tuesday morning and came all the way to Petersburg upon their wheels. At that point Mr. Spence took the train for Richmond and his companion rode the distance upon his bicycle, leaving Petersburg at 6 o'clock Friday morning and reaching Richmond two hours and a half later.

At 3 o'clock in the afternoon they left the Virginia capital for Washington, and will continue their ride as far as Canada, where they will take the train and return home.

The young cyclists were in the usual outing attire, and were not burdened with any baggage. The bicycle of Mr. Wynne was very muddy, he having travelled all day Thursday through the rain and over rough roads. Both these young gentlemen belong to the League of American Wheelmen and are members of the Capital Cycle Club of Raleigh. They are off on a month's jaunt, and expect to visit many of the Northern cities.

The Rich Man's Son.

The rich man's son inherits lands, And piles of brick and stone and gold, And he inherits soft white hands, And tender flesh that fears the cold.

Like soft hands, and tender flesh, many diseases are inherited; especially tendencies to Asthma, Consumption, Bronchitis, and Stomach and Liver troubles; but there is a remedy known as the "Golden Medical Discovery," which overcomes these diseases, and cuts off all tendencies toward a fatal result. Dr. Pierce, of Buffalo, has put this remedy within the reach of all, so that even the poor as well as the rich, can obtain it. It is worth more to you than "piles of brick and stone and gold." Ask your druggist for it. It's guaranteed to benefit or cure in every case, or money paid for it will be refunded.

An excellent remedy for dyspepsia—Simmons' Liver Regulator—C. Masters, Sheriff of Bibb Co., Ga.

FOR DYSPEPSIA, Indigestion, and Stomach disorders, use BROWN'S IRON BITTERS. All dealers keep it, \$1 per bottle. Genuine has trade-mark and crossed red lines on wrapper.
